

Appendix E: TCSS Fire Mitigation Policy

Under all weather conditions

- Firefighting equipment is located in the 100-yard range pavilion: shovels, rakes, fire extinguishers;
- No incendiary rounds of any kind allowed;
- Shooters will ensure there is no smoldering material on the range berms before leaving the range;
- "Patch & Ball" muzzle loaders will shoot from up-wind benches to keep patches on the range floor and check for smoldering patches before leaving the range;
- Shooter will be extra vigilant during Stage 1 and 2 fire bans;
- No smoking at any time on the range.

Stage 2 Fire Ban

- The 200, 300, 400-yard range will be CLOSED;
- TCSS president will communicate the fire ban status to all members via e-mail both when the 200, 300 and 400-yard range is closed and then reopened;
- TCSS Range Manager will post signs at the range notifying members of the closure;
- The 100- and 25-yard ranges as well as the Shotgun Range will remain open;
- No smoking at the range.

Stage 3 Fire Ban

- The GCSSC will be CLOSED;
- TCSS president will communicate the fire ban status to all members via e-mail both when the range is closed and then reopened;
- The web master will update the TCSS website to indicate range is closed;
- The Range Manager or member of the TCSS Board of Directors will lock the gate to prevent access by anyone until the Stage 3 fire ban is reduced or lifted.

Red Flag Warning Days

- The 200, 300, 400-yard range will be CLOSED;
- TCSS president will communicate the fire ban status to all members via e-mail both when the 200, 300 and 400-yard range is closed and then reopened;
- TCSS Range Manager will post signs at the range notifying members of the closure;
- The 100- and 25-yard ranges as well as the Shotgun Range will remain open;
